BRING ON THE STORMS!

You can be ready when a summer storm strikes. Keep your power on and your home cool with a standby generator.

In unpredictable weather, you can count on a standby generator to keep your home, your family and your pets safe and comfortable during power outages. Your generator will turn on automatically when the power goes out and will turn off again once power is restored.

OTHER BENEFITS INCLUDE

- 1 Power for all your heating and AC; water heaters, wells and sump pumps; kitchen appliances; and selected lights and receptacles
- 2 Connected to your natural gas line, giving you year-round protection, 24 hours a day
- 3 Increases your home's value and can perform for more than 20 years with proper maintenance remodeling.hw.net/cost-vs-value/2018/
- 4 Professionally installed by licensed generator technicians
- 5 Affordable financing options available

This offer is not valid with any other specials, discounts, coupons, estimate-only appointments, or previous invoices or proposals. Generator purchase must be made through Canter Power Systems to qualify for rebate or other special offers.
